

Take your Career to the next Level

Upon request, Austrian Institute of Excellence offers to compile and deliver exam preparation courses for both PMP® and PMI-ACP® Certifications.

These courses are to be facilitated by our PMI® Licensed trainer, Mr. Mark Engelhardt.

During these courses, participants will work with specific books, recommended by the trainer, which they must secure by themselves.

Upon completion of the courses, the participants will receive the respective contact hours of training needed for their further application on the PMI® online platform:

- 35 hours of project management education/training he/ she will receive after participating in the 4 day Exam Prep. Course for the PMP® Certification
- 21 contact hours of training in agile practices he/ she will receive after participating in the 3 day Exam Prep. Course for the PMI-ACP® Certification

Should you need more information or counselling regarding the certification process, kindly let us know and we will organise a Skype meeting with our expert to further detail the steps and aspects to have in mind, prior to starting the Certification Process.

Starting September 2020, Austrian Institute of Excellence in collaboration with our Expert, Mr. Engelhardt will introduce to the Albanian market two new international introductory courses for:

- 1. Scaled Agile Framework® (SAFe®)**
- 2. Large-Scale Scrum (LeSS)**
- 3. Business Analysis Certifications (IIBA®)**

Scaled Agile, Inc. is the certifying body of the **Scaled Agile Framework® (SAFe®)**. Certified SAFe professionals are globally recognized for their ability to support the successful transformation of organizations into Lean-Agile enterprise.

Large-Scale Scrum [LeSS] is a lightweight (agile) framework for scaling Scrum to more than one team. LeSS consists of the LeSS Principles, the Framework, the Guides and a set of experiments. LeSS is different with other scaling frameworks in the sense that it provides a very minimalistic framework that enables empiricism on a large-scale which enables the teams and organization to inspect-adapt their implementation based on their experiences and context. LeSS is based on the idea that providing too much rules, roles, artifacts and asking the organization to tailor it down is a fundamentally flawed approach and instead scaling frameworks should be minimalistic and allowing organizations to fill them in.

An **IIBA® certification** prepares and equips Business Analysis Professionals with expertise and key competencies. Certification improves your marketability, your employability, and your earning potential.
