

Agile Business Transformation

...Are you ready for business transformation?

Business transformation can be a matter of survival for corporations in today's fast developing markets.

This Business Transformation Training course can provide you with the tools and the skills needed to ensure that your organization continues to thrive - even in the face of adversity.

Indeed, business transformation is a necessity for companies hoping to seize the opportunities and overcome the challenges of a globalized marketplace.

Key blocks:

- Managing The Change and the Complexity
- New Concept of Change Management
- Successful Entrepreneur's DNA
 - Strategy/Future/Vision – still valid in agile environments?
 - People (Culture, Mindset, Values, Needs, Strengths)
 - Organization (Holocracy, Responsibilities, Competences,..)
 - Systems (Methods, rituals, Resilience,..)
 - Results (Know How Transfer, Learning Organization, Value Stream Analysis)
 - Innovation (Creativity, Customer Focus, etc)

Methodology

Training sessions are designed to be interactive. What makes persons learn profoundly and sustainable is what they engage in. We use a minimized time of teaching intervention and maximize their learning impact by providing short orientation inputs, usually bringing a concept and at least one (mental) tool together, then either an immediate exercise or real implementation for individual/ group engagement.

- Systemic approach
- The Milton way of communication
- Examples from the participants
- Exchange of experiences, cases and stories from the experience of a coach
- Transfer exercises

Duration:

2-3 days
