

METAL WELDING TRAINING MODULE 1

Content:

Theory

- Safety at the workplace
- Basics of the process
- Welding voltage and welding amperage
- Technology and materials
- Principles of metallurgy
- Types of filler materials

Practice

- Cladding
- Welding of fillet welds (single layer and multilayer), welding in the flat position and horizontal position.

Target Group

To be updated

Trainer: The training will be delivered by an international supervisor approved by the Certifying Body of WIFI Austria

Duration: 40 - 56 Learning Units (70 % theory, 30 % practice)

Price: To be updated
